A close-up photograph of a large, light pink lotus flower in full bloom. The petals are numerous, layered, and have a delicate, slightly ruffled texture. They are covered in small, clear water droplets, suggesting it has recently rained or been watered. The center of the flower is filled with a dense cluster of bright yellow stamens. The flower is growing in a garden bed with dark, moist soil. In the background, there are green leaves of other plants and a small white plastic container. The overall scene is a lush, natural garden environment.
